SHORTHORN SALE

April 1, 1960

Dear Friends:

It is, as always, a pleasure for me to extend to you on behalf of my family a cordial invitation to attend our sale April 16th. As you will note, this is a Saturday rather than our usual Monday. We have made this change to enable more young people to attend. Last year, Shorthorns increased in registrations 23%. Junior memberships increased over 100%.

Our Association is working with great success to interest our young people in Shorthorns. This success indicates a brighter future for Shorthorns in the years to come.

Recent sales indicate continued strong demand for serviceable age bulls and an increasing demand for females. Never before have we offered as many cows with calves as we are offering in this sale. This is indeed an unparalleled buying opportunity.

Please join us April 16th. Bring your family as well as others interested in Shorthorn cattle. I know you will enjoy seeing sold high quality practical working Shorthorns.

Her sire (Imported Cuggleton Rainey) and maternal grandsire and great grandsire were also herd bulls here. Two bulls from this family have been retained and used here (see ref. sires, page 8). SCOFIELD'S RANCH

Sale Guarantee

1. Proper care must be given by purchaser to protect qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later submitted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service data.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off.

All animals sold in this sale will be backed by the above Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
